

ELASTICTEK QUALITY POLICY

In its pursuit of excellence and commitment to sustainable development, Elastictek (Trimtek – Innovative Films, S.A.) involves all its employees in adhering to legal requirements – both regulatory and ethical – while upholding the following principles:

We measure, monitor and continuously evaluate performance, to ensure sustainable compliance, innovation, hygiene, quality, and safety across the entire supply chain, from production to the client and end consumer.

We foster the training and development of all our employees, encouraging their engagement to enhance motivation, responsibility, and skill sets, with a particular focus on hygiene, quality, and safety.

We continuously enhance our quality, environmental, and safety management systems by implementing best practices to prevent and mitigate environmental impact and occupational risks.

We prevent pollution and reduce our carbon footprint through effective waste management, conservation of natural resources, and continuous improvement of environmental performance.

We drive research and innovation projects that enhance products and processes, fostering sustainability and setting us apart from the competition.

We comply with all applicable legal and regulatory requirements while proactively preparing for new regulations, ensuring continuous conformity.

We cultivate strong partnerships with our clients, leveraging internal resources to ensure integration and sustainable growth while delivering innovative, high-quality products.

We encourage our suppliers to embrace responsible and sustainable practices, contributing to the company's growth.

We ensure hygiene, health, and safety conditions in the workplace, preventing accidents and illnesses while safeguarding the well-being of workers and third parties.

We are committed to sustainability and the integration of ESG criteria, minimizing environmental impact, promoting responsible social practices, and ensuring transparency and ethics in our corporate governance.
